Green for Life

Over 2,000 companies inspiring your outdoor living

This year we are pleased to introduce **Green for Life**, a program that celebrates the joys of being outdoors, and connects you to Ontario's landscape, nursery and green industry professionals — the members of Landscape Ontario Horticultural Trades Association.

We take great joy in beautifying the world, and Green for Life is our commitment to help you better enjoy your time outdoors.

A major component of the Green for Life program is the newly redesigned website, **www.landscapentario.com**. Come visit to see thousands of beautiful photos showing landscapes, water features, outdoor lighting and amazing inspirational ideas. We have posted a library of how-to articles to assist you in plant selection, design tips and questions to ask as you search for products and services available from Landscape Ontario member companies.

Go to *Garden Design 101* for hints on how to use colour or texture, index articles in the *Plant Resource* section for ideas about plant foods, get lists of plants that work in special settings, or find out how to build that water feature. Our *Award Winners* portfolio is a stunning collection of the very best designs from Landscape Ontario members over the past years, and we guarantee you will be inspired to create similar magic with your outdoor areas at home.

Connecting with a Landscape Ontario member is as easy as a search in our *Choose a Professional* pages. You can sort by several criteria, and use the new map feature to find members who work in your neighbourhood. From design to construction to the local garden centre or service company, Landscape Ontario members can help you with any project.

Remember that inspiration is just a click away at **www.landscapentario.com**.

Who we are: Landscape Ontario Horticultural Trades Association (LOHTA) is a vibrant association representing over 2000 horticultural professionals. Our members include landscape, maintenance and snow management contractors, landscape designers, lawn care operators, garden centre owners, arborists, nursery growers, interior landscapers, and irrigation and landscape lighting contractors.

LOHTA members have a commitment to maintain confidence and trust in the profession of horticulture and to encourage and support education and research within the horticultural field. By presenting *Canada Blooms* each year in partnership with The Garden Club of Toronto, LOHTA also helps fulfill its pledge to elevate the green industry and enhance our environment. And finally, members of LOHTA's nine chapters donated time and materials worth over \$500,000 last year through projects to green their communities.

design

Trends

COMPILED BY LORRAINE FLANIGAN

In Landscape Ontario's Awards of Excellence program everyone wins – from designers of distinction to homeowners looking for inspiration. In this roundup of 2009 award-winning gardens, you're sure to find plenty of innovative ideas to help make your own backyard a winner.

Mass plantings of coneflower, daylilies and grasses blend with the natural landscape in this cottage-country garden.

Water's Edge Landscaping

Judging by the 145 award-winning entries in the 2009 Ontario-wide Awards of Excellence program, creative ideas aren't hard to come by. Trends in outdoor living continue to be strong, with *al fresco* kitchens, dining rooms and poolside lounging areas. Designs also feature big ideas for small spaces that create multi-use environments for

entertainment, relaxation and gardening activities, too. On the following pages, you'll see astonishing makeovers, naturalistic designs and landscape lighting ideas to brighten the garden all through the night. For more ideas from Landscape Ontario's Awards of Excellence program, visit www.landscapeontario.com.

simply Natural

Designing from nature, whether it's using quarried stone and rock or installing chlorine-free swimming ponds, creates an environment in harmony with the natural landscape.

Looking as natural as nature itself, this constructed pond has a meandering edge that incorporates two sandy beaches. Berms on one of the pond's boundaries baffle the noise and create privacy from a nearby, busy road while a wetland area provides a protected nesting area for waterfowl. Around the pond, mixed and native plantings help integrate the pond with the surrounding countryside. The pond offers valuable habitat for wildlife while providing endless recreational opportunities, too.

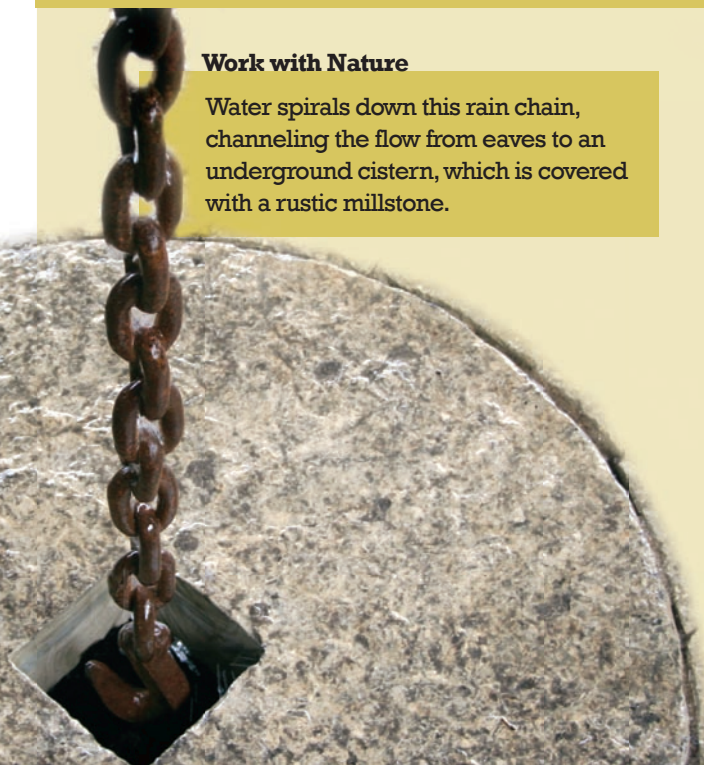

D.A. Gracey & Associates

Simply Natural Design Tips

Work with Nature

Water spirals down this rain chain, channeling the flow from eaves to an underground cistern, which is covered with a rustic millstone.

Future Lawn Inc.

Reclaim Rubble

Serpentine walls built of granite boulders salvaged from farmers' fields and hedgerows fit naturally into the landscape.

D.A. Gracey & Associates

Soften Stone with Plants

This flight of natural stone steps, softened by shade-loving plants, makes a narrow, steep entrance seem more generous and inviting.

Mapleridge Landscapes Ltd

new plants

Annuals

Begonia Bellagio[™] ‘Innbellpea’, ‘Innbellab’ and ‘Innbello’ **Bellagio**[™] begonia series

Bellagio[™] is a brand new series of *Begonias* suitable for hanging baskets. Bellagio[™] begonias offer large, double flowers, in soft colours — Blush, Apricot and Pearl. This series blooms early, with much stronger performance than traditional tuberous begonias. Best in filtered sun. It will reach 35 cm (14 in.) tall and will spread 60 cm (24 in.) in a hanging basket. Need regular fertilization.

Begonia tuberhybrida ‘Nonstop[®] Fire’ **‘Nonstop[®] Fire’ tuberous begonia**

‘Nonstop[®] Fire’ is a truly unique, vibrant addition to the ‘Nonstop[®]’ series. ‘Nonstop[®] Fire’ is appropriately named for its hot shades of yellow, gold and orange, resulting in an amazing colour contrast against the deep green foliage. Its habit makes it ideal for use in baskets, combination planters and as a specimen plant in the garden.

Calibrachoa Aloha ‘Hot Orange’ **Aloha ‘Hot Orange’ calibrachoa**

Aloha ‘Hot Orange’ is a unique bright, bold colour that will stand out in any landscape or planter. *Calibrachoa Aloha* series has a very round habit, with masses of large decorative flowers that bloom all summer long in a sunny location.

Diascia Flirtation[™] **Flirtation**[™] diascia

Flirtation[™] *diascia* will reach a height of 25 cm (10 in.) and spreads to 35 cm (14 in.). Flirtation[™] Pink has delicate pink flowers with maroon red throats. Its sturdy, semi-trailing habit creates outstanding hanging baskets and containers. Flirtation does well in full sun.

Dorotheanthus bellidiformis ‘Mezoo Trailing Red’ **Livingstone daisy**

Succulent trailing foliage that fills in faster than vinca vine. Livingstone daisy thrives in high temperatures and produces dark red dime-sized flowers.

Erysimum ‘Innrysibro’ and ‘Inrseyigol’ **Precious**[™] Bronze and Precious[™] Gold wallflower

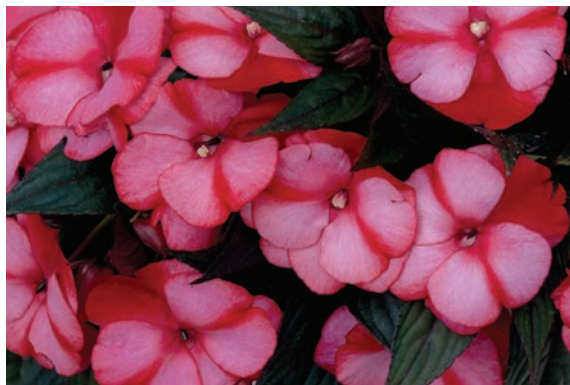

Precious[™] Bronze and Precious[™] Gold wallflower both offer a compact habit and will grow 20-30 cm (8-12 in.) tall with a spread of 15-20 cm (6-8 in.). Precious[™] Bronze has fragrant orange-yellow blooms that sit atop rich olive green foliage. Precious[™] Gold has fragrant golden yellow blooms. Both prefer full sun.

Euphorbia 'Silver Fog'
'Silver Fog' euphorbia

Silver Fog euphorbia is a great addition to combination baskets, and will enhance any landscape. Silver Fog blooms all summer long, even in the heat. Delicate white blooms over round leaves make this lace effect work in any decor, with any plant, and any colour arrangements.

Impatiens Infinity® Blushing Crimson
**Infinity® Blushing Crimson
New Guinea impatiens**

Infinity® Blushing Crimson brings a new bi-colour bloom to the series. Deep crimson edges fade to white centres, while each flower retains one fully crimson petal for a pansy-like effect. It will reach a height of 35 cm (14 in.) and spread 45 cm (18 in.).

Ismelia carinata Vestidos™
Vestidos™ tri-colour daisy

A unique, tri-colour daisy with stunning 7 cm (3 in.) blooms in white, red and yellow. Blooms continuously through hot summers. Vestidos™ has an attractive upright habit with dense, lacy foliage.

Osteospermum Asti™ 'Purple'
Asti™ 'Purple' osteospermum

Asti' *osteospermum* has been bred to be both heat and cold tolerant, blooming all season long. Asti 'White' won the 2008 AAS Award. Best in full sun. New this year is 'Purple', which grows 50 cm (20 in.) tall and wide.

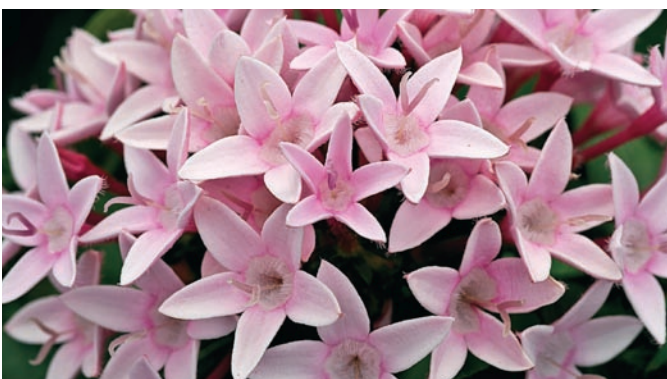

Pentas lanceolata 'Kaleidoscope Deep Rose'
and 'Kaleidoscope Pink'

**'Kaleidoscope Deep Rose' and
'Kaleidoscope Pink' pentas**

The 'Kaleidoscope' *pentas* series is a taller landscape series that provides bountiful colour even in the hottest conditions. Two new attractive colours have been added to the Kaleidoscope' series this year, 'Kaleidoscope Pink' and 'Kaleidoscope Deep Rose.' 'Kaleidoscope Pink', is a delightful soft pink that combines well with the new 'Kaleidoscope Deep Rose.'

Pentas Starla™ 'Appleblossom' and 'Lavender'
**Starla™ 'Appleblossom' pentas,
Starla™ 'Lavender' pentas**

'Starla' *pentas* offer long-lasting, large flowers bloom continuously above the foliage, making 'Starla' perfect for big garden beds and patio containers. Best in full sun. Grows 35 cm (14 in.) tall and 40 cm (16 in.) wide.

Petunia Potunia 'Lobster'
'Lobster' Potunia

Potunias have a jam-packed canopy of flowers. They grow like a bubble, round and round. *Potunia* 'Lobster' has a very distinct salmon-pink colour. *Potunias* are at their best in hanging baskets, in pots of all sizes, and are gorgeous in combination planters.

Petunia milliflora Picobella™ series
Picobella™ miniature petunia series

'Picobella' represents the next generation of *Milliflora petunias*. This petite petunia series has been bred for strong garden performance with more weather tolerance and a nicely mounded habit with loads of branching and flowers. Perfect for beds, borders and containers. Colours include 'Blue', 'Carmine,' 'Light Lavender,' 'Rose,' 'White' and 'Mixture.' Full sun. Grows 25 cm (10 in.) tall and wide.

Ptilotus exaltatus 'Joey'
'Joey' ptilotus

The new *Ptilotus* 'Joey' is truly a breeding breakthrough. A native to central Australia, ptilotus offers exceptional beauty, with the side benefit of heat and drought tolerance. Large, conical spikes of feathery flowers top thick silver green foliage. The 7.5-10 cm (3-4 in.) bottlebrush flower spikes are glistening silver with a darker neon pink colour near the tips.

Rudbeckia TigerEye™ 'Gold'
TigerEye™ 'Gold' coneflower

TigerEye is the first and only F1 hybrid *Rudbeckia*. This hybrid status means never-before-seen strength in the garden. Nicely branched plants are covered with long-lasting flowers with less sensitivity to powdery mildew. Full sun, grows 45 cm (18 in.) tall and wide.

Salvia Mesa™
Mesa™ salvia

This new salvia offers outstanding heat and drought tolerance. Mesa™ has a dense, bushy plant habit. Early blooming and attracts hummingbirds. Colours are 'Rose', 'Purple', 'Azure' and 'Scarlet'.

Zinnia Zahara™ 'Scarlet'
Zahara™ 'Scarlet' zinnia

Zahara™ 'Scarlet' zinnia is disease-tolerant and heat-loving, and offers 20 per cent larger flowers in stronger colours. Once established in the ground, in full sun, the plant's blooms deepen in colour with no fading.

Make room for living

Landscapes that define areas for eating, lounging and play can extend your living space to the outdoors in creative and beautiful ways. Roofed pergolas protect al fresco dining areas while lattice screens, stain-washed fencing and strategic hedging can create a private oasis, even in the heart of the city.

Future Lawn Inc.

Why drive to the cottage when an outdoor living room, complete with propane fireplace and low voltage lighting, can make your own backyard as appealing as this one? The pergola-topped room has overhead radiant heating to take the chill off cool evenings. On one side is a wall constructed of Brussels Block concrete stone capped with natural limestone. A wrought iron fence discretely separates the living area from the lawn and the natural pine reforestation area that lies beyond. Comfortable, casual outdoor furniture make the outdoor room invitingly comfortable for entertaining or relaxing.

Living Room Design Tips

Leishman Landscaping Ltd.

Multi-task Leisure Spots
Relax at a poolside tiki bar, complete with built-in barbecue, Tuscan limestone countertop and refrigerators as well as seating for four thirsty visitors.

Make it Cozy and Private

This cozy reading nook is tucked into the corner of the garden and slightly sunken to create an informal, private reading room.

S Rebelo Landscapes Inc.

landscape ideas

enduring

Classics

Traditional landscape design deftly combines both formal and naturalistic elements to create gardens of lasting beauty.

Mass plantings of astilbes and hydrangeas are formally edged by a low boxwood hedge and a row of blue ageratums.

Maintenance by Environmental Design Landscaping Contractors Ltd.

Immaculately groomed, this classic garden features crisply clipped, low boxwood hedging to frame flowerbeds brimming with riotous colour. Formal elements include symmetrically placed urns, a handsome latticework arbour and elegant statuary strategically placed among the beds. Informal plantings of perennials and flowering shrubs are complemented by

annual bedding plants that provide season-long interest. In maintaining the grounds, the landscape contractors added whimsical ornamentation, such as a bronze hare contemplating a shallow, watery pond and pumpkins placed among the chrysanthemums as unexpected touches to make the garden welcoming.

Above: Boxwood topiaries form perfect pyramids lining a cut stone pathway that leads to an inviting wrought iron bench.

Right: Flowerbeds rim swathes of lush, green lawn.

Enduring Classics Design Tips

Add An Artistic Touch

A well-chosen piece of statuary makes a perfect focal point in traditional gardens.

Pare Down the Palette

A monochromatic planting of tulips forms a dramatic border between a stone wall and a sharply edged lawn.

Find A Perfect Balance

Natural stone steps and the foliage of hostas and hydrangeas balance the formality of these impressive, wrought iron gates.

new plants

Perennials

Coreopsis verticillata 'Moonray'
'Moonray' threadleaf coreopsis

A sport of the ever-popular 'Moonbeam' discovered at Walters Gardens, 'Moonray' produces masses of light creamy yellow blossoms atop airy clumps of fine, needle-like foliage. The plants bloom all summer for three continuous months, and are vigorous growers just like 'Moonbeam'. Adds a beautiful finely textured element to the garden and combines well with other pastel-coloured perennials. Grows up to 30 cm (24 in.) tall and wide.

Dianthus gratianopolitanus 'Petite'
'Petite' Cheddar pinks

A drought-tolerant perennial with light-gray foliage, this *Dianthus* fits snugly on the ground and covers the area completely. Tiny, charming, pink flowers bloom on short spikes in late spring and early summer. Bring various levels of height and interest into the garden by planting 'Petite' with taller perennials. Needs sharp drainage to succeed and will thrive even under moderate foot traffic. Grows 2.5 cm (1 in.) tall in full to partial sun.

Dianthus 'Wicked Witch'
'Wicked Witch' border pink

Border pinks are a group of *Dianthus* that are a traditional favourite for planting in rock gardens or using as a border edging. This outstanding variety forms a low cushion of grassy blue-grey foliage, with an early-summer display of fragrant single cherry-red blooms. Shear plants back lightly after blooming to maintain a tight, compact habit.

Plants require good drainage and are an excellent choice for hot dry sites or gravelly soils. Combines beautifully with other low alpine plants. Attractive to butterflies.

Echinacea purpurea 'Green Envy'
'Green Envy' coneflower

This bicoloured *Echinacea* is an historic first. 'Green Envy' flowers in a jade green colour with brilliant magenta veining. The flowers retain their vibrant green hue from the time they flower in mid-July through the fall months. Petals remain round, and the cone a deep green for a considerable period. In later stages of maturity, the petals gradually elongate, taking on a magenta veining, while the cone also turns a dark purplish tone. Grows 75-90 cm (30-36 in.).

Echinacea purpurea 'Mac 'n' Cheese'
'Mac 'n' Cheese' coneflower

Warm 11 cm (4.5 in.) golden blooms cover this new *Echinacea*. Strong, well-branched stems grow up to 65 cm (26 in.) tall. A perfect complement for E. 'Tomato Soup'! Full sun.

Echinacea purpurea 'Tomato Soup'
'Tomato Soup' coneflower

Warm, tomato-red flowers to 12.5 cm (5 in.) wide stunned visitors to the plant breeder's nursery. Can grow up to 90 cm (36 in.) tall, showing excellent strength and covered in flowers until frost. A natural pairing with E. 'Mac 'n' Cheese.' Full sun.

Eryngium planum 'Jade Frost'
'Jade Frost' sea holly

Sea holly features open umbels of prickly flowers, which are a favourite for cutting, fresh or dried. This unusual selection has grey-green leaves edged in creamy white, developing pink tones during the cooler months. Stems and flower clusters are a rich violet blue, appearing in early to midsummer. Tolerant of hot, dry sites, and soils high in salts. For drying, pick stems just as the flower clusters open fully, and hang upside down to dry in a warm, dark place. Attractive to butterflies. Found in the Cornwall, U.K. garden of James and Megan Cave.

Gaillardia Commotion® 'Tizzy' and *Commotion*® 'Frenzy'
Commotion® 'Tizzy' and Commotion® 'Frenzy' blanket flower

'Tizzy' is a fluted form with deep russet red buds opening to ray petals that range from red to a rosy terra cotta, outlined with yellow. 'Frenzy' offers a fluted form with red buds opening to dark red ray petals with distinct yellow tips and a yellow and red centre. A high petal count on both

these varieties gives the blossoms a very full, almost semi-double appearance that is set off by a tidy, rounded mound of dark green foliage. Prefers well-drained soil and full sun. Deadheading and regular feeding promotes continuous blooming. The flowers are vibrant and full, and will brighten gardens from May through the first hard frost. Grows 45-60 cm (18-24 in.) tall and spreads 60 cm (24 in.).

Geranium 'Blogold'
Blue Sunrise cranesbill

A long-blooming hybrid cranesbill, a huge improvement on the older types. This forms a low, sprawling mound of deeply cut leaves that start out amber in spring, changing to chartreuse and later green. Clusters of deep violet-blue cup-shaped flowers appear in early summer, continuing for months, especially in cool-summer regions. Excellent for massing or

using near the border edge, also in containers. If flowering stops in midsummer, prune plants back to 10 cm (4 in.) to rejuvenate. Could well prove to be hardy in Zones 3 or colder.

Geranium 'Dragon Heart'
'Dragon Heart' hardy geranium

A recent introduction from the UK, this is a long-flowering hybrid useful for a flash of colour in the border. It forms a mid-sized and somewhat trailing mound of very large deeply-cut leaves, holding clusters of exceptionally large black-eyed blooms of

glowing magenta purple. Wonderful when weaving among other border perennials, around shrubs or spilling down slopes or walls. Bred by Alan Bremner of Scotland.

new perennials

Geranium 'Starman'

'Starman' hardy geranium

This long-blooming cranesbill has a compact, mounding form that makes it perfect along the front edge of a border, growing from a wall or in the rock garden, as well as in mixed

containers. Clusters of flowers are deep pink with purple markings in the centre of each petal that form an interesting star pattern. The plant is truly loaded with flowers in early summer, continuing to bloom for many weeks. Trim back in midsummer if blooming begins to wane. Easily divided in spring or early autumn.

Heuchera 'Magic Color'

'Magic Color' coral bells

This hybrid coral bells selection is a terrific choice for adding a touch of colour towards the front of a border. The lobed leaves begin green with red veins and gold edges, ageing to silver with purple veins and red edges. Sprays

of creamy flowers appear in early summer. Protect from hot afternoon sun to prevent leaf scorch. Remove any winter-burned leaves in the spring, otherwise no pruning is required.

Heuchera 'Pinot Gris'

'Pinot Gris' coral bells

Lobed leaves are ginger-gold in spring, maturing to smoky-rose with a heavy overlay of silver and purple undersides. Taller sprays of ivory flowers appear in mid to late summer. Sturdy in habit, nice for borders,

containers or around shrubs in sun or shade. Remove any winter-burned leaves in the spring, otherwise no pruning is required. Developed in France by plant breeder Thierry Delabroye.

Hosta 'Earth Angel'

'Earth Angel' hosta

This spectacular large specimen selection has thick blue-green leaves with a wide and streaky margin of light yellow to creamy white. Lavender flowers appear in June. Clumps may be easily divided in the spring or

fall. A tissue-culture mutation of 'Blue Angel', discovered by Hans Hansen of Shady Oaks Nursery in Minnesota.

Hosta 'Fat Cat'

'Fat Cat' hosta

This large specimen selection has rounded and lightly corrugated leaves of yellow-gold. Near-white flowers appear in June. Given room this can grow to be fairly enormous.

Hosta 'Rosedale Golden Goose'

'Rosedale Golden Goose' hosta

This medium-large specimen selection has thick, bright gold leaves with a beautiful corrugated texture. Lavender flowers appear in July. Reported to have good slug tolerance and outstanding sun tolerance. Clumps may be easily divided in the spring or fall.

Hosta 'Sugar Daddy'

'Sugar Daddy' hosta

Near white flowers appear in June. Excellent slug resistance. A sport of 'Big Daddy.'

Hosta are among the most popular of perennials for shady areas, with hundreds of varieties now readily available. Plants form sturdy mounds of foliage, topped with lily-like blooms. This midsized specimen selection has very thick, corrugated powder-blue leaves with a streaky creamy-white margin.

Veronica prostrata 'Verbrig' USPP

Goldwell veronica

Short spikes of soft violet-blue flowers are a wonderful contrast to the colourful foliage in late spring. Narrow dark-green leaves have a crisp golden-yellow edge, staying attractive all season long. A beautiful edging plant, great when massed or grown in the sunny rock garden. Tolerates heat and drought once established. Clip or mow after flowering to maintain an especially dense and compact habit.

new plants

Woody plants

Amelanchier laevis 'JFS-Arb'
Spring Flurry® serviceberry

A dominant central leader supports strongly upward-oriented scaffold branches. Pure white blooms smother a delicate latticework of twigs early in spring before the leaves unfurl. Green foliage turns orange in the fall. Hardy to zone 5.

Buddleia x 'Blue Chip'
Lo & Behold™ Blue Chip

The first true miniature *Buddleia*. At just 60-75 cm (24-30 in.) by 75 cm (30 in.), Blue Chip stays neat and compact without pruning. It produces copious, fragrant blue flowers from mid summer to frost without any deadheading. It's great for mass plantings, perennial gardens, and container designs. Deer resistant, drought tolerant Blue Chip thrives in full sun to Zone 5.

Hydrangea macrophylla 'PIIHM-I'
**Endless Summer®
Twist-n-Shout™**

Like all plants in the Endless Summer® Collection, Twist-n-Shout™ produces abundant blooms on both old and new wood all summer long. Lacy deep-pink centres are surrounded by gorgeous blossoms of pink or periwinkle blue, depending on soil type. Twist-n-Shout is an elegant stand-alone specimen, dramatic in combination with other plants, and compact enough for containers. Developed by Dr. Michael Dirr.

Hydrangea macrophylla 'White Out'
Forever & Ever® White Out

A gorgeous full-bodied plant with large, 20 cm (8-in.) white mophead blooms comprised of individual flowers, atop deep green leaves. 'White Out' flowers from early to mid-summer until frost and is hardy in Zones 5 through 9. Its compact, rounded habit will grow to 70 cm (28 in.) tall and 64 cm (25 in.) wide. While most hydrangeas set buds in the fall, leaving them susceptible to winter damage, Forever & Ever hydrangeas produce flower buds on the new growth in spring, ensuring blooms every year even in our northern climate.

Hydrangea paniculata 'Bulk'
Quick Fire™ hydrangea

Quick Fire™ is quick to bloom in the garden. It flowers in late May or early June depending on location. The flowers begin to turn deep pink before Pink Diamond hydrangea even begins to show flowers.

space favors

Create room for outdoor living even in the smallest backyards with these design ideas that make the most of space.

All photos are Environmental Design Landscaping Contractors Ltd.

A slender stainless steel container planted with Japanese bloodgrass forms a low wall to compartmentalize the space.

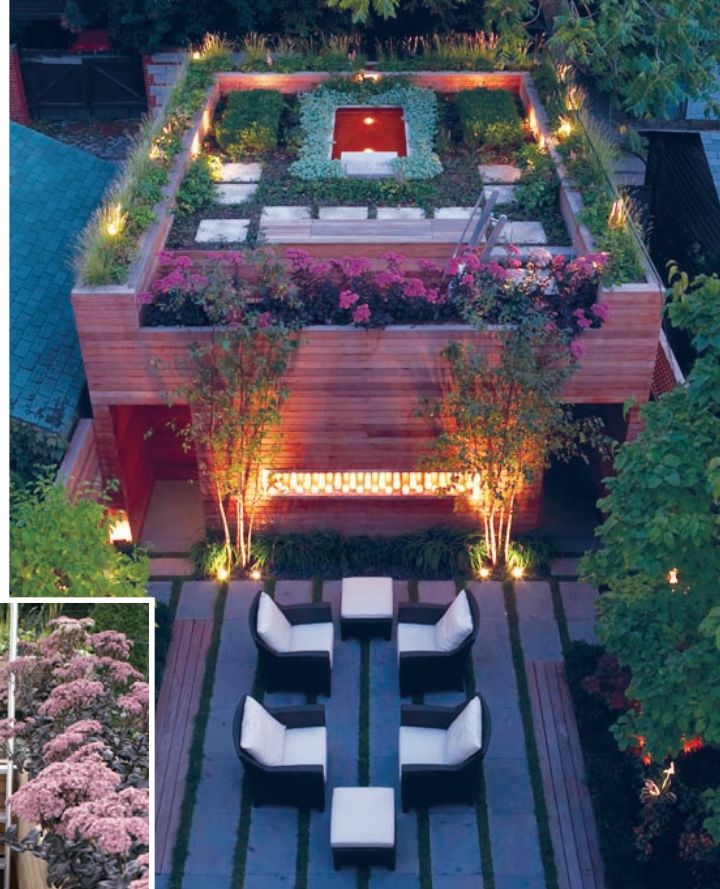

This inner city property, measuring a scant 6 x 6 metres, was transformed from a nondescript garden into a functional, contemporary landscape full of innovative ideas, including a carport intensively planted with a green roof garden. Walls of ipe hardwood define the space, creating an intimate and private oasis in the midst of the city. An outdoor dining set rests on a yard-wide patio of concrete pavers inter-planted

with strips of turfgrass and surrounded by Japanese maples and an 'Ivory Silk' lilac, low boxwood hedges and minimalist plantings of ornamental grasses. A handy ladder leads to the boxwood-hedged upper garden, where sedums, astilbes, ornamental grasses and a periwinkle groundcover bask in the sunshine.

Above: Casual and comfortable outdoor furniture and the soft glow of candles arranged in a recessed nook make the patio inviting on summer evenings.

Right: A lightweight, retractable aluminum ladder leads to the green roof that tops the carport.

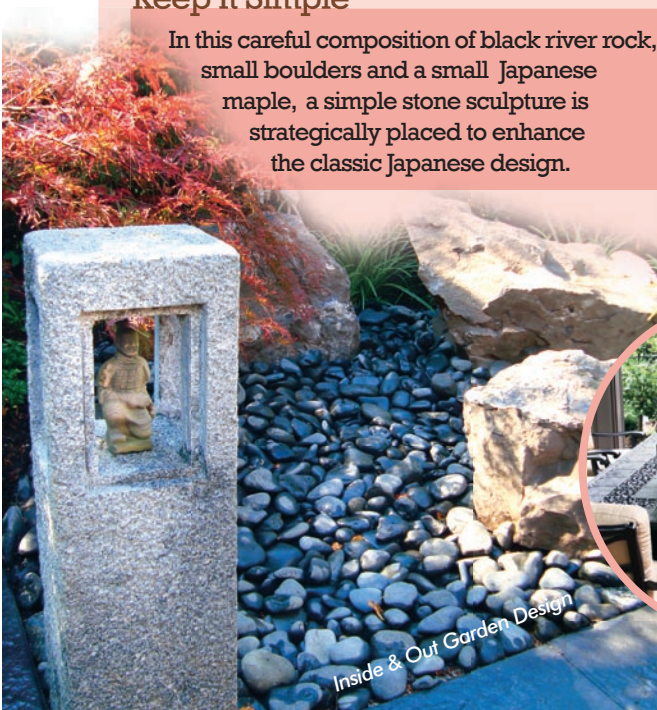

Above: The carport that forms the back boundary of the garden adds double-decker space to the small yard.

Space Savers Design Tips

Keep It Simple

In this careful composition of black river rock, small boulders and a small Japanese maple, a simple stone sculpture is strategically placed to enhance the classic Japanese design.

Play with Texture

This boldly modern front yard features lush, yet contemporary, minimalist plantings. Instead of flowers, plants such as *'Gracillimus' eulalia* grass and four Autumn Flame red maple specimen trees have been selected for their shades of green, texture and site appropriateness.

Kim Price Landscape Design Inc.

Change the Level, Borrow the View

An elevated outdoor dining area takes full advantage of the view beyond. Framed by a generously proportioned, protective pergola, the comfortable dining patio is paved in the warm, earthy tones of Belden bricks.

Dayspring Fine Gardens

Inside & Out Garden Design

landscape ideas

enjoy the

Night life

Outdoor lighting can help you make the most of evening hours, extending your enjoyment of pools, patios and decks well after the sun sets for the day.

The contemporary landscape of this narrow, urban lot reflects the award-winning architecture of the house. Night lighting highlights the Brazilian ipe wood used for the multi-level deck and brings to life the concrete block wall that hides a storage shed at the bottom of the garden, adding drama to this small-space garden. Lighting can extend your time outdoors, allowing you to enjoy warm summer evenings. Use landscape lighting to highlight specimen trees, add a warm glow to walls and fences and brighten the way down stairs or along a pathway.

Night Life Design Tips

Be Strategic

This backyard waterfall and pool is down-lit and cross-lit at strategic points to create a magical effect to extend swimming activities into the evening.

DiMarco Landscape Lighting

Reflect the Landscape Style

The sleek, louvered design of the lighting fixtures perfectly complements the Californian style architecture of the house as well as the contemporary landscape design.

Markville Landscaping & Nurseries Inc.

Tried and tested

Ontario trial gardens discover the best plant performers for your garden

BY RODGER TSCHANZ, UNIVERSITY OF GUELPH TRIAL GARDEN MANAGER

The top performers from the 2008 University of Guelph trial gardens were plants that stood up well to a variety of weather conditions, ranging from record rainfalls in mid-summer to drier sunny conditions in the fall.

By far the most popular plant in the 2008 trials was 'Tiger Eye Gold', the first F1 hybrid rudbeckia on the market. This rudbeckia bloomed heavily from July up until the first frost, and proved resistant to powdery mildew. In our garden, the plant reached heights of approximately 16 in.

Zinnias offered brilliant summer colour, and stood up well to the pounding of heavy rain in the 2008 trials. In the past, zinnias have had the reputation of succumbing to powdery mildew and declining rapidly in the fall – long before the first frost. With new zinnia breeding efforts shifting to increasing resistance to powdery mildew, we can now enjoy these plants all season long. The 'Zahara' series, a selection of *Zinnia marylandica*,

is powdery mildew resistant; the scarlet colour within this series was a favourite among visitors to the 2008 garden. 'Zahara' zinnias have striking large blooms and grow 12-18 in. tall.

We usually associate coleus plants with shady gardens, but some cultivars can also thrive and produce spectacular foliage colour in sunny gardens too. 'Henna' and 'Mint Mocha' both did well in sun and shade. These vigorous growers are suitable for mixed containers and garden beds. 'Henna' can reach heights of 28 in., its serrated foliage exhibits a colour range of chartreuse, to bronze to burgundy. 'Mint Mocha' has a red, yellow and green duckfoot leaf, and grows up to 24 in. tall.

The University of Guelph trial gardens are located at the Guelph Turfgrass Institute, 328 Victoria Rd. S., in Guelph, and at the Landscape Ontario office at 7856 Fifth Line South in Milton. An open house is held each August, where home gardeners are invited to view the trials and vote on their favourites.

Three magical makeovers

With thoughtful planning, a good understanding of the goals you want to achieve and attention to detail, an unattractive yard can be transformed into a beautiful and functional area. These three makeovers show how dramatic these changes can be.

B.K. Braun Landscape Ltd.

Lakeside Allure

Because the property surrounding this modest Lake Ontario cottage adjoins conservation lands, the gardens were planted with native trees, shrubs and perennials. Existing trees were pruned to take advantage of the views over the lake.

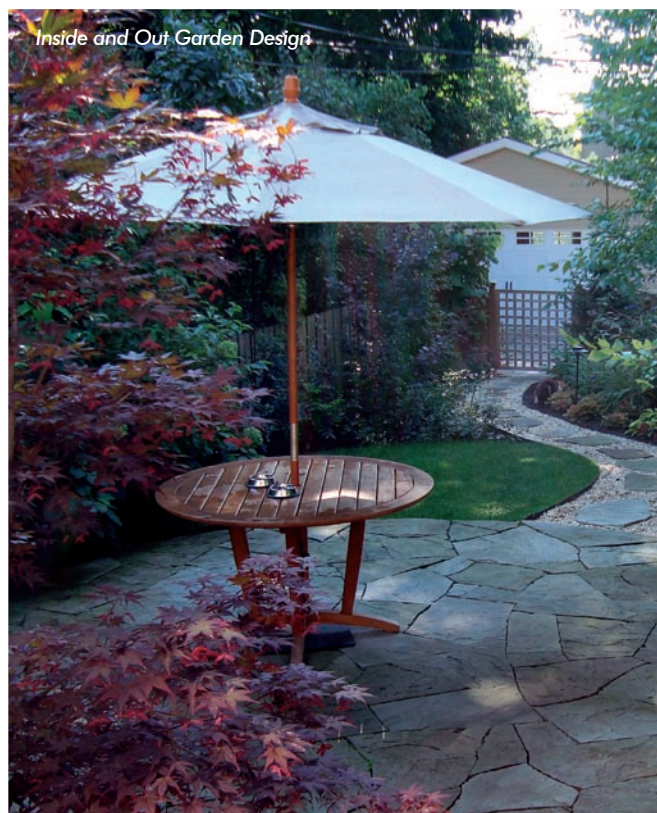

Earthscape Ontario

Outdoor Living

The rough and tumble back porch of this home was transformed into an all-weather living room, complete with a kitchen fitted with a sink, fridge, barbecue and countertop as well as a sitting area, dining table and chairs – even a spa. A dramatic curved timber roof towers like a cathedral ceiling over the outdoor room.

Instant Privacy

The clients of this city property needed privacy, functionality, instant greenery and a landscape that would make their home seem like it belonged to its surroundings. To add interest to the long and narrow lot, a winding path was installed leading to a circular patio situated at the mid-way point of the garden. Large specimens of river birch and 'Dawyck Purple' beech were planted along the western fence line to create an instant grove for privacy.

Inside and Out Garden Design

LANDSCAPE ONTARIO MEMBER COMPANIES
