

Seize Control! Your Operating Budget

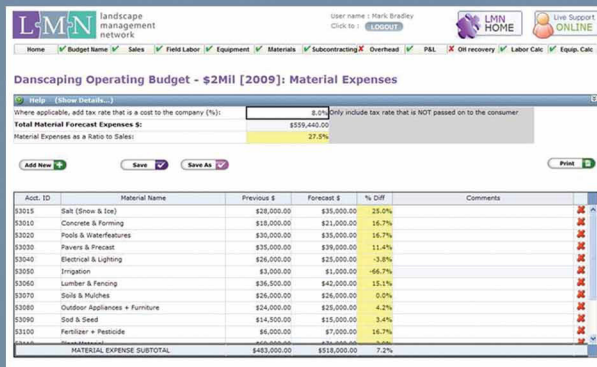

Improving your company

Winter is upon us. It's a time to reflect, and a time to prepare. You've done it before. This year, make it count. If you want to make the **right** changes and ensure they deliver the **results you want** – you need a plan.

- **What sales goals do you need to achieve?**
- **What do you need to spend to meet your sales goals?**
- **How much profit should you expect?**
- **What do you need to charge for your work?**
- **Can you afford to hire? Buy new? Expand? Grow?**

The answers to these questions, and many more, can be found using an operating budget. We will help you build your budget using easy-to-use tools that do the math for you. Give us three days. Change your business forever.

How do the workshops work?

The Operating Budget workshops are 3 days in length. You bring your company's numbers and we'll make sure you leave with an operating budget you can use in your company. Workshops are being held weekly throughout the winter at Landscape Ontario's Milton headquarters. Each workshop has a limited number of available seats, so register for your spot quickly.
